1.0	Android Studio Flutter Animation动画效果	2019/06/14 刘志保
	https://api.flutter.dev/flutter/animation/Animation-class.html	

Flutter为开发人员提供了大概七种动画方式:

动画	描述	举例
AlwaysStoppedAnimation		
AnimationController	动画管理器,一般配合Tween帧动画使用	<pre> controller = new AnimationController(duration: const Duration(milliseconds: 5000), vsync: this); animation = new Tween(begin: 0.0, end: 300.0).animate(controller) ..addListener() { setState() { // the state that has changed here is the animation object' s value }); }); controller.forward(); </pre>
CompoundAnimation		
CurvedAnimation		
ProxyAnimation		
ReverseAnimation		
TrainHoppingAnimation
